## MERN Stack Developer

9778363673 | rahimanmahroof@gmail.com | linkedin.com/in/mahroof1030 | github.com/abdulmahroof3010-tech

### PROFESSIONAL SUMMARY

---

Self-driven Full Stack Developer working with the MERN stack, with a strong interest in understanding how applications scale and behave as systems. Comfortable working across frontend and backend development, including REST APIs, authentication systems, and secure backend functionalities. Shows consistent curiosity toward understanding scalable systems, backend architecture, and security considerations. Passionate about problem-solving, clean code practices, and continuously improving development skills.

### SKILLS

---

**Languages** : JavaScript, TypeScript, HTML, CSS.

**Frontend** : React.js, Next.js, Tailwind CSS, Redux.

**Backend** : Node.js, Express.js, Multer.

**Databases** : MongoDB, Mongoose, Redis

**Tools** : Git, GitHub, Postman.

**Soft Skills** : Communication, Teamwork, Time Management, Problem Solving.

### PROJECTS

---

**Velsent** - Full-Stack E-commerce Platform | Live | GitHub

- Developed a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB.
- Built responsive frontend interfaces using React.js, Tailwind CSS, and Context API.
- Designed and integrated REST APIs for authentication, products, cart, orders, and user operations.
- Implemented JWT authentication, access and refresh tokens, protected routes, password hashing, and rate limiting.
- Developed OTP-based verification workflows for secure user authentication.
- Integrated Razorpay payment gateway and built admin dashboard functionalities for product, order, and user management.
- Implemented product listing, cart, wishlist, order management, filtering, and searching functionalities.
- Integrated Multer and Cloudinary for image uploads and improved frontend responsiveness across devices.

### EXPERIENCE

---

#### MERN Stack Developer Intern

*Bridgeon Solutions*

Sep 2025 – Present

- Worked in a structured MERN stack training environment focused on real-world full-stack application development.
- Part of a structured developer training bootcamp focused on real-world application development and professional engineering practices.
- Gained hands-on experience with React, Redux Toolkit, Node.js, Express.js, MongoDB, Next.js, and REST API development.
- Built full-stack features, debugged issues, wrote reusable components, and improved backend API performance.
- Collaborated using Git and GitHub, participated in code reviews, and followed agile workflows including scrum planning and weekly reviews.
- Learned fundamentals of deployment, schema design, authentication workflows, and modern development best practices.

### EDUCATION

---

#### P.A First Grade College

*Bachelor of Computer Application*

Sep 2022 – Jun 2025
